C. W. ROSSELL.

Lets of Rain Now.

Jupiter Pluvius is continuing to be bountiful in his supply of rain in this and surrounding districts, the recent downpour contributing nearly 1-10th inch to the general fund. Altho it's not a great deal, a great amount of good will be derived from the shower, and it gives previous falls a better chance to penetrate.

A number of these showers scattered thruout the fall will reach the subsoil for 1923's crop, and with normal precipitation next season, the yield should be better than was possible this year. Too much rain at this season may work a hardship on the few who are still harvesting, but will eventually be of good to every grain grower in the Province.

"Steady" Joins the Benedicts.

An interesting ceremony was solemnized by Rev. Father Hetu in Edmonton, Aug. 28, when Miss Yvonne Patry, of Legal, became the bride of Mr. Gerald Steadman. The bride looked charming in a suit of navy blue tulle, and carried a bouquet of pale pink roses and wore a beautiful raps of pearls, the gift of the bridegroom. The happy couple are spending the honeymoon at Banff, and will take up their residence in Trochu, where the bridegroom is accountant in the Bank of Montreal. Among the beautiful gifts was a silver tray and check from the Attorney-General's Dept., where the bride had been employed for several years.

Mr. Steadman was formerly the accountant at the Merchants Bank in Stony, and will be remembered as a popular sportsman and prominent society man.

School Trustee Election.

Owing to the withdrawal of Stony Plain Centre S.D. from the Consolidated S.D., the election of a new trustee was necessary, and the contest for the same was held on Friday last.

When nominations were called for by the Chairman, the name of John H. Foerster was proposed by J. H. Lory, seconded by M. S. Moyer.

Mr. Geo. Oppertshausen was proposed by G. W. Donaldson, seconded by F. W. Lundy.

The election followed the close of the nominations, when considerable hustling was done by friends of both contestants.

When the polls closed it was found that G. Oppertshausen was elected by 29 votes, to his opponent's 17.

There were 14 spoiled ballots, owing to voters not being able to decipher names of the candidates on the ballots.

The Board now comprises: T. J. Hardwick (chairman), H. Goerz and G. Oppertshausen. A secretary will be appointed at the Board's first meeting. General regret is felt at the loss to the Board of the services of an efficient and painstaking public official like Mr. John H. Foerster, who has served locally in various public capacities in a faithful manner.

Ancient Hen Fruit.

Successful prosecutions of merchants who evade regulations with respect to sale of eggs unfit for consumption, have recently been made by the Dept. of Agriculture. The officials are determined to enforce the regulations with respect to marketing of bad eggs, and are ready to take action, if necessary.

LOCAL NEWS.

Miss Hazel Ellis has returned to Edmonton to resume her studies.

Mr. E. Bell invited a party of friends to Tofted on the holiday.

Jake Scheideman was taken to the City Thursday evening last to be operated on.

Dr. Henry Y. S. is planning the erection of an office and infirmary next to Blacksmith Miller, on Second Street.

Mr. Bonser took a party of sportsmen to Wabamun Lake on Labor Day.

Visitors to Stony this week were Game Warden Lawton on the holiday, and M. B. McColl on Thursday.

A number of the students from Concordia College spent the weekend at their parents' homes in this district.

The Service Garage has had a set of illuminators put on the Main St. cornice of the building.

A large party of city commuters came out on the holiday to duck hunt in this district.

The local Demonstration Farm last week shipped a batch of pure bred poultry to a E. C. point.

Monday's Prince Rupert train was 90 mins. late.

While motoring to Edmonton on Wednesday, Mr. John Armbruster had the misfortune to be in a collision with another motor car, with slight damages to both.

Dr. L. Faint Jones wishes to announce that he has moved his office to new quarters over Kelly's new store and his residence to four doors west of Oppertshausen's store. Phone Residence No. 1. Office "Kelly store."

Another record was broken on Friday last Sept. 1st, when the first wheat of the season was hauled to Mr. Robertson at the Gillespie Elevator. The grain was from the farm of Mr. Kruger, and was early out and threshed from the stack. It graded No. 2.

At the local court on Saturday last, when the case of G. Holm vs. V. N. Hennig of Golden Spike was called, the complainant stated the charge had been withdrawn, and the case was dismissed with costs against complainant.

Local lovers of sports again nearly witnessed a sporting event in the shape of a football game on Friday last. This time the near-event was arranged between Mike's Pets and Indians. The reason given for the postponement was that the nitches had to stay home and stack oats.

A very interesting address was given on Sunday afternoon last, at Duchok's Hall, by Mr. Looker under the auspices of the I. B. S. A., the subject being "Where Are the Dead." Another address will be given on Sunday, September 17th, at 3 p.m., to which all are invited.

Two local pupils from Grade 11, Darwood Moyer and John Kulak were in Edmonton yesterday trying again in two subjects each, in which they had failed at the recent Departmental exams.

Game licences may be procured at The Sun Office.

The Public Suffers And Pays

A newspaper despatch from Detroit on August 27 reported, Henry Ford as saying that, as a result of the coal shortage caused by the strike of the miners, 105,000 employees of the Ford Motor Company throughout the United States would be thrown out of employment on September 16, and that in addition several hundred thousand other workers employed in industries furnishing materials for the Ford plants would be forced into idleness. In other words, the means of livelihood of between one and two million people would be cut off.

These hundreds of thousands of men and their families are to suffer through no act of their own, nor because of any dispute with their employers—because it is well-known that the Ford employees are well paid and well treated—but solely because of a labor conflict between the coal operators and the miners, and the attempts being made to settle this difference of opinion by the waging of an industrial war. Instead of endeavoring to reach an amiable settlement through an arbitration conference.

Why should these people be made the innocent victims of the unreasonableness and greed of others? Is our boasted civilization such a poor thing that leaders in public life, in finance and industry, and in the direction of organized labor, cannot devise any better method of settling their disputes than by a resort to war? Are these leaders so devoid of common sense and intelligence, so lacking in an appreciation of what constitutes right and justice, that they are ready and willing to inflict loss and suffering upon hundreds of thousands of absolutely innocent men, women and children? In their refusal to see any side to the questions confronting them but that in which is bound up their own selfish interests they are surely guilty of a criminal intent far surpassing many acts punishable by severe penalties under the law.

The coal strikes in the Canadian Maritime Provinces and in Western Canada have been settled and the miners have returned to work, but only after enormous and quite unnecessary losses have been inflicted upon both parties to the disputes, which might just as well, and ought to have been, settled by conferences before the strikes took place instead of after the strikes. Miners and mine owners alike have lost money, the public exchequer has been put to heavy and unwarranted expense—all of which the public must, in the final analysis, pay.

And now, with what is generally admitted to be the second heaviest grain crop in the history of the Dominion to be transported by rail and boat to the markets of the world just beginning to move, our transportation systems will likewise be called upon to handle an enormous volume of coal traffic in order to fill up empty coal sheds and bins which ought to have been handled during the slack months in grain movement. Instead of our transportation systems being enabled to spread the freight movement over a long period, they must cope with two peak loads at one and the same time.

Just what this means in further loss cannot accurately be estimated, but anyone at all familiar with the subject knows that the loss will be considerable because the business must be cared for in the most expensive instead of in the least expensive way. So, here again, the public must pay. The loss falls upon them. This is clearly revealed in present and prospective coal prices and also in the warnings being issued of the probable difficulty of obtaining adequate supplies of coal when they are needed.

Apart altogether from any question as to whether the miners or the mine owners are primarily responsible for these huge losses and inconvenience to the public, there is the much greater issue of the rights of people generally. Politicians must stop pussy-footing and abandon their attitude of timidity in dealing with the two opposing forces of Capital and Labor. Each is a great force and power in the nation. Each is essential to the well-being and prosperity of the country. Neither can get along without the other. But great and important as they are, there is a still greater force and power and one which constitutes a much more vital factor in the commonwealth—that is the whole people; in other words, the nation itself.

Politicians, instead of striving to gain the support of this particular group or that, or rather endeavoring not to antagonize either, must take a decided stand and tell both that this suicidal strike nonsense must cease, and that labor disputes must be settled in a sane and intelligent manner through processes similar to those provided by courts of law for the settlement of all other civil disputes.

British Capital May Open Branch Plants

Manufacturers Eager to Have Goods Produced in Canada

F. W. Field, British Trade Commissioner, who returned to Toronto after two months in England studying trade conditions there, states that there is every cause for optimism. Generally speaking, he said, the outlook was brighter than it was a year ago, and there was a better feeling among the business men of Britain.

One of the most hopeful features, said Mr. Field, was that hundreds of representatives of British businesses were at present travelling about the world seeking markets and investigating conditions. Many of these men, he said, would visit Canada, where their capital was again beginning to seek an outlet.

British manufacturers, he explained, were anxious to enter into co-operative relations with Canadian factories and distributors. Not only were they eager to place their money in Canadian enterprises, but they were also seeking to make arrangements for the manufacturing under joint direction, of their products in Canadian factories already established.

While it was true that British capital, in many instances, contemplated investment in Canada through the establishment of branch plants, the general tendency was to make use of the manufacturing facilities already established in Canada for the production of their goods.

WHEN WOMEN SUFFER

Look for weakness or ill-health. See if there is not a side ache, headache, restlessness and the "blues." The symptoms indicate that you need the gentle assistance of Dr. Hamilton's Pills. This soothing medicine is a great friend to womanhood. They are a wonderful relief to constipation, they clear up sick headache, remove wastes and poisons from the system. Girls and women can use Dr. Hamilton's Pills with great success. Thousands use no other medicine and rely solely upon Dr. Hamilton's Pills to regulate the system and keep it in smooth running order. 25c all dealers or The Catarhozone Co., Montreal.

Healthiest Year

Figures compiled by thirty-seven life insurance companies show that 1921 was the healthiest year for Canada of which there is any record.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine so good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

How They Do It In Europe

Revert to Barter System to Overcome Exchange Problem.

Barter, or the exchange of goods, as against the transfer of actual cash has figured in recent international loans, according to the Geneva correspondent of the London Observer. In this way the difficulties of exchange have been overcome.

Rumia wanted a loan of \$5,000,000 gold francs from Switzerland. The Swiss said it was impossible unless they knew how the money was to be spent. Rumania replied: "We need to replenish railroad rolling stock, particularly engines."

"Fine," said the Swiss bankers, "we have these for sale. Take them, and pay for them in cereals and petroleum, both of which you produce and we need." Thus were the arrangements concluded.

Similar borrowing and paying by barter also has taken place with Czechoslovakia. Here, again, Czechoslovakia is receiving Swiss manufactured goods and is to pay for them with truck loads of sugar. Therefore the question of exchange and the comparative values of the Czechoslovakian krona and the Swiss franc does not arise.

New Stock Feeding Plan

Finish Sheep and Hogs on Cleanings Of Western Elevators

A Vancouver syndicate is being organized to finish sheep and hogs on cleanings of western elevators. Cleanings contain a large percentage of noxious weeds, which still make good fattening for food. The danger in selling promiscuously is that the seeds might become scattered and create a noxious weed danger. The plan is to centralize the flock in feed centres where no danger of spread of noxious weeds could exist. The plan is receiving very serious consideration by elevator and packing plant men.

Radium Institute

Quebec Government Prepares For Opening in Montreal

The Quebec Government has now everything set for the opening of the radium institute in Montreal, in accordance with the announcement made by Premier Taschereau.

At a meeting of the cabinet held at Quebec it was decided to purchase one grain of radium from the United States Radium Company of New York, at the rate of seventy-seven dollars per milligram.

Checked for Air. Some little irritant becomes lodged in the bronchial tubes, others gather, and the awful choking of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. Kellogg's Asthma Remedy. The healing, soothing smoke or vapor penetrates, clears the passages and gives instant relief. It has behind it years of success. It is the sure remedy for every sufferer.

Must Grab Fast

"Yes," said the timid passenger to the airplane pilot, "I understand I'm to sit still and not be afraid, and all that, but tell me, if something happens and we fall, what do I do?"

"Oh, that's easy," said the pilot. "Just grab anything we're passing and hang on tight!"

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbonylchloride of Hydrochloric Acid. While it is well known that Aspirin means Bayer, manufacturers to meet the public demand, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Makes Claim That Germany Is One Of The Richest Countries In The World

Germany is one of the richest countries in the world, according to a writer in the London Daily Mail. National wealth does not consist of money but of tangible property and goods, and it is increased by production.

Germany is far wealthier than France. All North Germany is a level plain, very fruitful and easily cultivable, and it is opened up by a unique system of gently flowing, deep rivers which can be connected, while France has little level ground and only turbulent or small rivers.

The principal wealth of nations is created nowadays in factories. Modern industry depends upon coal. Germany has lost a good deal of coal by the peace, but in the Ruhr Valley alone she has about 200,000,000 tons of coal—twelve times as much as all France and considerably more than the United Kingdom, the writer states.

For international commerce Germany has the best position in the centre of Europe. Last, but not least she has more than 60,000,000 inhabitants, while France has less than 40,000,000. Owing to her superiority in natural resources, Germany has more man power and therefore in production, Germany is undoubtedly twice as rich as France, in the writer's opinion.

Germany's industries are extraordinarily prosperous but their prosperity is disguised as far as possible. German chemical imports are hampered by high tariffs, prohibitions and Government subsidies. Nevertheless gross profits in chemical industries increased tenfold between 1918 and 1921 and net profits eightfold.

In one company, although gigantic sums were written off and hidden in other ways, says the writer, dividends equivalent to 250 per cent of the capital of 1916 were paid. To disguise that fact the capital of the company was increased nearly eightfold, and the shareholders, besides receiving 20 per cent in cash, got huge dividends in shares valued at them far below the market price.

Similar conditions prevail almost everywhere, he continues. Germany has become the company promoter's paradise. During the first quarter of 1913 new issues came to 125,000,000 marks. During the first quarter of 1922 new issues came to 12,151,700,000 marks, or were 100 times as great.

We are told that Germany is crushed by taxation; that German income tax is the highest in the world, he says.

Unfortunately, the high nominal rates do not yield corresponding revenue, because people refuse to pay. Those who default the revenue are lightly punished or not punished at all and their names are not published, as in Great Britain.

According to the official forecast, Germany's national revenue for the current year is to come to 103,508,855,677 marks. At the present rate of exchange that sum is equivalent to about \$50,000,000. Before the war Germany's revenue came to \$200,000,000.

British taxation yields from four to five times as much as before the war, while German taxation yields one-fourth as much as in the pre-war year.

A Progressive Dairy District

One of the most progressive districts in Canada is that of Lake St. John, Quebec, reports the Dominion Dairy and Cold Storage Branch. The people in the district depend largely on dairying and hog raising. Their farms are well and neatly kept, some wired and lighted by electricity, the barns having cement floors, iron stanchions, individual water bowls and litter carriers. Last year 49 herds comprising 616 cows were tested around Metabetchouan and had an average of 5,307 lb. of milk and 205.7 lb. of fat. In the spring of this year the provincial dairy inspectors had organized testing centres comprising 637 herds and 8,847 cows. Cheese from this district is highly thought of in Montreal. The district is noted for its scenery and its hunting and fishing.

It sometimes does you good to hear no good of yourself.

W. N. U. 1498

Autos From Canada

Domestic May Become Largest Automobile Exporting Country in the World

"It is predicted that within a decade Canada will be the greatest automobile exporting country in the world," says The Industrial Digest, New York. "Several of the world's largest producers of motor vehicles, according to recent reports, are now handling all their export business from the Dominion, while the largest individual manufacturer of motor cars has for some years filled all orders for the British Dominions and possessions from his plant on the Canadian side of the St. Clair River."

"With a population of about 9,000,000, Canada owns and operates over 400,000 automobiles and trucks. A decade has witnessed an increase in automobile ownership of twenty fold. While such a phenomenal advance is given to be expected, continuous replacement of motor vehicles is assured. Within the next ten years, Canada will offer a home market for more than 500,000 motor vehicles for replacement purposes only. In that time, it is believed the market will expand its demand from 50,000 to 60,000 motor vehicles per annum, which it now offers, to beyond 100,000 motor vehicles. In the automobile manufacturing concerns alone employment is given to 4,000 men, earning an average of 1,200 or 1,500 a year. Wages paid total about 710,000,000 and salaries about \$3,000,000. Manufacturers of automobile supplies pay salaries amounting to nearly \$1,000,000 every year, and wages of more than \$5,000,000."

To Secure Good Class of Settlers Amendments to Immigration Act May Be Introduced Next Session

If the proposition of the Federal Government complied with by the provinces, after necessary negotiations, a system of co-operation will be evolved in respect to the immigration problem which may obviate duplication of effort. At the present time, several provinces have immigration agencies in the Old Country operating distinctly from those of the Dominion Government. What is considered to be the more acceptable plan is that the Federal Government confine its activities to securing the immigrants overseas and transporting them to Canada, leaving the allocation to the provinces.

A sub-committee of the Cabinet is dealing with the question generally, and it is very likely that, at the next session of Parliament, the Immigration Act will be revised. Variation in the existing restrictions will be a matter for consideration in the meantime.

The great demand is for British immigrants, and plenty of them are available. The unfortunate part of the situation, however, is that the class ready to come to Canada are not those either disposed to go on the land or likely to make good if they went there. Rather, they are of the artisan-class, whose coming would only tend to aggravate the existing problem of unemployment in the urban centres.

As regards the Scandinavians, they are industrious and a desirable type of immigrants, but the difficulty is that in their country any propaganda for emigration is prohibited and infractions are penalized. There remains Central Europe, but while there are many from these countries who have made good in Canada, prejudice gotten by the war are an obstacle to their admission, and, in fact, the law in its present form sets up a bar against them.

A good class of immigrants, with a steady flow, are coming from the United States, where 17 Canadian immigration agencies are in operation.

The Bank of England

The Bank of England was established in the City of London in 1694. Although a private institution, it is under Government control, and constitutes the treasury of the empire. England having no national treasury like that of the United States, it is maintained by a government deposit governor, and twenty-four directors.

Fruit and Vegetable Pests Numerous

Insects Cause Trouble to Gardeners in Various Parts of Canada

The Entomological Branch of the Dominion Department of Agriculture, dealing with the insect conditions in June, report, the grape leaf hopper particularly active in the Niagara district; the tent caterpillar especially numerous in the Maritime Provinces and fairly so throughout Canada; the Bud moth unusually abundant in Nova Scotia, Ontario and British Columbia; the gooseberry borer busy in Southern Quebec; the Measuring worm giving trouble in British Columbia orchards; the Currant Sawfly and Spanworm heard from in Quebec and Ontario; the Strawberry Root Worm causing injury in Southern Ontario; the Strawberry Weevil showing vitality in the Maritime Provinces and the Strawberry Root Weevil (a different species) in British Columbia. Successful efforts are being made in Southern Ontario to check the activities of the Rose Chafer, but the Raspberry leaf-roller is unusually prevalent in Southern Ontario, where the San Jose scale is also in evidence. The Canker Worm is also noted in certain sections of Ontario. As regards vegetables, Cutworms are reported more numerous than usual, Flea Beetles are particularly injurious on potatoes, turnips, tomatoes, etc., and the Onion Maggot is especially active in parts of Ontario, Quebec and British Columbia.

Just Made Over

After Mr. Brown had narked his yard he took the accumulated rubbish into the street to burn. A number of neighbors' children came flocking about the bonfire, among them a little girl whom Mr. Brown did not remember having seen before. Wishing with his usual kindness, to make the stranger feel at ease, he beamed upon her and said, heartily: "Hello! Isn't this a new face?" A deep red suffused her cheeks. "No," she stammered, "it ain't new. It's just been washed."

What Pizmie Found at the End of the Rainbow.

"If I ever tell you about the time that Pizmie started off on a long, long trip in search of the treasure at the end of the rainbow? No? It seems that once when he had been wandering around the woods where Humans live, he had heard two people talking of some mysterious treasure at the rainbow's end; so then and there he decided to find it.

"He should be very easy for me to reach the end of a rainbow," he reasoned to himself, "because I live at the End-of-the-Earth. It will be no trouble at all, and the very next time a rainbow shows itself in the sky I shall hurry and get on to it, and I shall travel along to the very end hidden end. Oh, if only a rainbow would come!" It was all he could do to wait for one.

At last his chance came. It had been storming, and suddenly the clouds parted, and a beautiful rainbow lay before him. The little that Pizmie was so fascinated watching its delicately tinted lines appear and blend, that for a bit he actually forgot his long haggard plan to journey along the heavenly bridge. But he only forgot for a very few moments. He threw his hat high up in the air, gave two or three delighted yells at the top of his lungs and dashed to tell Stella what he was about to do.

A queer little fellow was the Wishing Fairy. He was as she listened, and her voice was very gentle and tender when she answered: "I'll help you all I can, Pizmie dear," she said, "for I'll have my magic wand over you, and that you will have yourself started at the beginning of the rainbow, and you will not have to waste a lot of time hunting around the rim of the earth for it. You will be gone quite a while and you'll be very, very tired when you return home, but you'll also be very, very happy!"

"Because I shall have found the treasure!" Pizmie cried eagerly. "When I heard those two Humans discussing it I rather gathered that it's a pot of gold. I hope I find it."

"You'll find a great treasure," she replied, "but one that is far more precious than you imagine. Wait and see, and when you return be sure to come straight to here and tell me what happened." Stella now began waving her wand and before he quite realized what had happened the Brownie found himself struggling and stumbling hurriedly along the rainbow. His eyes were straining at the dazzling distance before him. He saw no pot of gold, but he was so thoroughly enjoying himself that he didn't really care.

"For," he murmured to himself, "what's a pot of gold anyhow? Finding the rainbow and finding out that it is more wonderful than I thought it was a dozen pots of gold!" Just then the colors faded away and Pizmie found himself at the end of his rainbow. He was happier than he had ever felt before, and that you will have yourself started at the beginning of the rainbow, and you will not have to waste a lot of time hunting around the rim of the earth for it. You will be gone quite a while and you'll be very, very tired when you return home, but you'll also be very, very happy!"

"For," he murmured to himself, "what's a pot of gold anyhow? Finding the rainbow and finding out that it is more wonderful than I thought it was a dozen pots of gold!" Just then the colors faded away and Pizmie found himself at the end of his rainbow. He was happier than he had ever felt before, and that you will have yourself started at the beginning of the rainbow, and you will not have to waste a lot of time hunting around the rim of the earth for it. You will be gone quite a while and you'll be very, very tired when you return home, but you'll also be very, very happy!"

"Because I shall have found the treasure!" Pizmie cried eagerly. "When I heard those two Humans discussing it I rather gathered that it's a pot of gold. I hope I find it."

"You'll find a great treasure," she replied, "but one that is far more precious than you imagine. Wait and see, and when you return be sure to come straight to here and tell me what happened." Stella now began waving her wand and before he quite realized what had happened the Brownie found himself struggling and stumbling hurriedly along the rainbow. His eyes were straining at the dazzling distance before him. He saw no pot of gold, but he was so thoroughly enjoying himself that he didn't really care.

"You'll find a great treasure," she replied, "but one that is far more precious than you imagine. Wait and see

Entirely New Treatment For Bronchitis, Catarrh

No Internal Medicine to Take

Years ago the profession fought Catarrh by internal dosing. They upset the stomach and didn't remove the trouble. The modern treatment consists of breathing the healing, soothing essence of Catarrhose, which goes instantly to the source and the trouble. Catarrhose is successful because it penetrates where liquid medicines can't go. The balsamic vapor of Catarrhose drives out the germs, soothes the irritation, relieves the cough, makes Catarrhal troubles disappear quickly. For had throat, coughs, bronchitis, Catarrhose is a wonder. Two months treatment one dollar. Small size 50c. Sold everywhere or The Catarrhose Co., Montreal.

MY CANADA

Bar B Ranch,
August 3rd, 19—

The Bar B Ranch is bounded on the north by Lawrence Pigot, on the south by the United States of America, on the east by a barbed-wire fence five strands high, and on the west by the Banneer River. Across the river is the Indian Reserve on which Mr. Bingham "runs" his cattle.

The house is built quite close to the river, and at night I can hear the Banneer whispering over the submerged island which serves as a ford. I am not at all sure that I like the Banneer; it is too swift and too deep and too cold. Each person I have asked tells a different story to account for the river's name. The most probable one is that it is a corruption of the Indian name; but the most romantic one, and therefore the one that I prefer, is as follows:

Years and years and years ago a young Irish prospector tramped here one night in the early spring. Just at the witching hour he awakened his companion with a sudden, awakened eagle. But the Irishman, true to his blood, was not to be convinced. And now comes the point of the story. When the two young men reached civilization again all doubts vanished for a letter awaited them announcing the death of the Irishman's eldest

A Stitch in Time

Quick action is the only hope when kidney disease appears.

There is a whole train of dreadfully painful and fatal ailments which soon follow any neglect to get the kidneys right. Among others are rheumatism, lumbago, Bright's disease, hardening of the arteries and high blood pressure.

In Dr. Chase's Kidney-Liver Pills you will find the treatment which is both quick and thorough.

Mr. C. E. Raynes, Lindale, Alta., writes:

"I was a great sufferer from kidney disease and lame back for more than a year. A friend advised me to take Dr. Chase's Kidney-Liver Pills, and noting upon his advice I tried them. After I had taken one box I felt better, so I continued until I had used five boxes. By this time I felt as well and strong as ever, and am glad to recommend Dr. Chase's Kidney-Liver Pills to anyone suffering as I did."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 15c. All local dealers, or Edmondson, Bates & Co., Ltd., Toronto.

W. N. U. 1436

brother on the very day on which the Banneer had been heard! Of course our friend succeeded to the title, married one of the girls whose photograph he carried under his cartridge belt, and lived happily ever after.

The Bingham house is absolutely perfect for its purpose. It is a big square place, painted white with green trimmings, and has a ten-foot veranda almost all the way around it. On the south side there is a balcony which can be closed in by windows—greenhouse fashion—during cold weather, and it is just what Mrs. Bingham intends to sleep all the winter through.

Entering the house by the front door, one comes directly into a large room which is hall and living-room combined. An immense open fireplace, built of water-worn stones from the Banneer, and an open staircase go a long way towards furnishing the room. One would expect the piano and the other impediments of civilization to look out of place in such an unconventional surroundings, but they do not, so suitably have they been chosen. There are an inch of plaster in the whole hall, every room is paneled from floor to ceiling with British Columbia fir. Can you not imagine how suitable a background this is for mounted heads and antlers, Indian head-works, and the right sort of pictures? In the hall and in the bedrooms there are "skins" of dead wolf and hare, instead of carpets; the other rooms have bare floors.

We are twenty miles from a town, but we have a real bathroom, thanks to a very ugly modern windmill—I shall have a windmill built on our farm. And the house is lighted throughout with gas generated by an evil-smelling plant in the basement.

My bedroom is in the west side of the house, and from my windows I have a glimpse of the mountains. It is perfectly lovely to be able to drive out whenever and wherever the spirit moves one, and when I had hung my pictures and scattered my things about, and the house was what the novelists call "studied disorder," I began to feel very much at home.

The animals inhabiting the region of the Bar B are more numerous than I shall name, classify and otherwise dispose of, the quadrupeds first, because I can walk no longer to do so.

Cupid, the horse of my dreams, who is to be mine for ever and to hold so long as I am on the Bingham ranch. He is a beautiful little sorrel, with a cream mane and tail, a cream star on his forehead, and a truly angelic disposition. I very nearly hugged the giggling Mr. Bingham when he told me that he had given the foreman orders to the effect that Cupid was to be considered my special property! Of course I cannot ride very well as yet, but Mr. Livingstone says that I am "doing as well as could be expected"—one would think that I was recovering from a severe illness. He looks like an unbecomingly scorn upon my riding habit, but he advises me at regular intervals and in a grandfatherly manner by the handsome standard living. This is not to say that Mr. Livingstone is the handsome Canadian living—but I must admit that he is the handsome one I have seen.

To return to the quadrupeds. There are, on the Bar B Ranch, several thousand cattle and one cow. For obvious reasons the cattle are not named, but the one cow, a thoroughbred Jersey, is called Kathleen, reason unknown. Kathleen is kept "picketed" on the side of the river and is milked eight and morning by the devoted Lee. Mr. Livingstone says that the first summer she was here the cattle used to line up across the river and watch the milking process with breathless interest, the younger ones saying in effect that they'd like to see themselves treated in such a way! This seems to be the place to explain that "cattle" are beef-cattle, and that "cows" are a grade lower in the bovine social scale—merely the producing end of a dairy business.

"We" have about a hundred horses. These are mostly "cow-ponies," tough, wiry, half-broken creatures, not to be compared with Cupid.

David has already mentioned, but I almost forgot Thomas a Becket. If ever a cat was a born hermit, Thomas is that cat. He enjoys human habitation, unless he wishes to steal something—that is not meant as an insinuation against hermits in general, and he is notoriously careless of his appearance. His tail has been broken and in consequence has a most melancholy droop, his ears are ragged from frost-bites, and he bears the scars of many wounds gained in honorable conflict with David and David's predecessors. I feel sorry for Thomas, but I am afraid to confess my partiality—may it not be the spinsters' instinctive fondness for cats?

Last, but not by any means least in importance, comes William. William is a sanctimonious-looking little fellow who was given to Sunny a year ago by her well-meaning but badly-informed godmother. Fancy a god in the cattle country! Early this spring Sunny promised herself from William and the governor's cart to a real, somewhat undernourished, horse. William shows no resentment at being so summarily superseded, and he takes quite kindly to his present free and easy existence. If there is one living thing that I dislike more than a

Niagara Grapes

Fifteen hundred cars of grapes will be handled by the Niagara Grape Growers' Association this year, almost double that of last year. The season has been one of the most successful for many years, with weather conditions ideal throughout. The 1,500 cars the company will handle represent about 94 per cent. of the production of all the peninsula vineyards.

Many infants are infested by worms which cause great suffering, and if not promptly dealt with may cause constitutional weakness difficult to remedy. Miller's Worm Powders will clear the stomach and bowels of worms and will so protect the system that there will be no recurrence of the trouble. And not only this, but they will repair the injuries to the organs that worms cause and restore them to soundness.

Expect Good Whaling Season

The Consolidated Whaling Corporation of Vancouver is again operating this year. It is stated that the mammals appear to be plentiful this season, and it is expected that an average catch will be made, probably about 1,000 whales.

Girls Forgotten in China

Of so little account are women considered in many parts of China that a father, if asked the number of his children, will probably leave out the girls in his reckoning.

YOU CAN BE WELL

You can be free of coughs and colds—free of stomach trouble, indigestion and constipation—free of all ailments and free of headaches and nervousness—only if you use **PE-RI-UNA** medicine.

Practically all ailments are caused by a diseased condition of the stomach and bowels. PE-RI-UNA has been used for many years and has been found to be a most effective remedy for all ailments of the stomach and bowels. It is a most effective remedy for all ailments of the stomach and bowels. It is a most effective remedy for all ailments of the stomach and bowels.

Try it yourself. Sold everywhere. Get a bottle today. PE-RI-UNA COMPANY, 345 St. Paul St., Montreal.

Practical Effort Made In Manitoba To Assist The Farmers

Winnipeg.—The appointment of an official, who would act as an advisory referee where farmers who are hard pressed financially want an extension of time, will probably be made as the result of a conference between the Government and business interests in Manitoba. It was learned officially.

This is the first practical effort in the Dominion to set up business machinery whereby the rural population can appeal from their creditors and it is expected this will prevent the glutting of the wheat market by foreign farmers to sell their grain too soon after harvest. The plan has been approved by the business men who attended the conference, but a further meeting will be held before the appointment is announced. The referee, while having no legal power to stay the foreclosing of a farmer, will be able to bring strong pressure to bear on the creditor to allow an extension of time, if it is considered advisable.

Her Two Children Had Diarrhoea Terribly Bad

Anyone suffering from bowel complaints such as diarrhoea, dysentery, colic, cholera, cholera morbus, cholera infantum, or any other looseness of the bowels, will find that Dr. Fowler's Extract of Wild Strawberry will give quicker and more permanent relief than any other remedy on the market today.

Mrs. Roy Keith, Charlton, Ont., writes:—"I am writing to tell you what Dr. Fowler's Extract of Wild Strawberry did for me. Last summer my children had diarrhoea, terribly bad, and they would vomit and pass a great deal of blood. I tried every remedy we could think of, but finally bought a bottle of Dr. Fowler's Extract of Wild Strawberry, and after about half of it stopped the diarrhoea altogether. I have told several others about it, and I would not be without it in the house, as I can truthfully say it saved the lives of my two children." Price, 60c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Trade Agreement With Belgium
Brussels.—Negotiations for an economic agreement between Belgium and Canada are expected to open here in the near future. Hon. W. S. Fielding will conduct the negotiations with Premier Theunys and Foreign Minister Jaspars.

Montreal Population Grows
Montreal.—An estimated population of 563,183 for Greater Montreal is made by the publishers of a local directory. The population of the city proper is placed at 397,888.

ONTARIO MOTHER HELPS DAUGHTER

Mothers—watch your daughter's health. From the time she reaches the age of twelve until womanhood is established she needs your care and advice. Many women have suffered years of ill-health through lack of such care during this time.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for girls and women. For nearly fifty years it has been helping mothers and daughters. Let it help you and your daughter.

Hamilton, Ontario.—"When my daughter was thirteen and she was fifteen she suffered every month so that she could hardly move around the house and when she would have the pains in school she would have to be carried home. Besides the pains and the irregularity she also had headache, dizziness and faint spells, and nervous in her back. I saw your advertisement in the 'Hamilton Evening Star' and got Lydia E. Pinkham's Vegetable Compound for her. She does not have the least bit of trouble now and we both recommend your medicine. She works in a candy-shop now and seems well and strong. Give you permission to publish this letter as a testimonial."—Mrs. L. P. Carter, 70 Walnut St., South, Hamilton, Ontario.

When Overtaken by Nausea Try This Simple Remedy

When you don't know whether it's going to stay down or come up, when you look like thirty cents, and feel even worse, what you need is twenty drops of Nervine. In sweetened water. Almost like magic is the change you experience. Those feelings of vomiting disappear. Thousands of homes rely on Nervine in case of sour stomach, gas bloating, nausea and upset stomach conditions. Get it today, large 35c bottles sold by all Dealers.

British Preparing For Unemployment

Industry Reviving But Many Will Be Out of Work

London.—Heretofore the Government Committee which is dealing with the unemployment problem has only succeeded in laying down broad lines of policy. The official advisors of the Government report now but steady improvement in trade and express the belief there would be a marked revival of industry this fall.

Nevertheless the committee anticipates that the total number of unemployed persons during the coming winter will not be less than 1,000,000, and plans are being considered for dealing with the evil directly by providing relief work and indirectly by promoting trade.

May Scrap Old Warships

London.—The Times understands that arrangements have been made for sending a number of old British warships to Germany to be broken up. As the admiralty's policy of late has been to refuse Germany offers for old vessels an scrap, it is assumed those to be sent are among a group sold several months ago.

Wainwright Buffalo for London Zoo
Ottawa.—A pair of buffalo from the great Canadian herd at Wainwright, Alta., will be shipped to England this fall, it is announced by the Dominion Parks Branch, for the purpose of introducing new blood into the Zoological Gardens, London.

Over 300 Are Drowned

Great Loss of Life When Vessel Sinks Off Chilean Coast

Santiago, Chile.—Only six persons, including two passengers, out of a total of 322 on board the Chilean steamship Itata were saved when the vessel sank off the Chilean coast near Coquimbo.

The steamer sailed from Coquimbo with 250 passengers aboard. Of these 80 were laborers proceeding to Antipagata.

Heavy cross seas damaged the rudder of the vessel, which was overloaded. In this helpless condition and caught in a strong southwest gale, the steamer was swept time and time again by the enormous waves. She listed badly and in a short time sank by the bow.

The Chilean warship Chacabuco, which sped to the rescue, found only scores of drowned floating on the ocean and remnants of wreckage. Only 17 perished.

Another boat with many passengers and sailors aboard, and in which Captain Caldera, who had been grievously injured, was placed, also capsized near the beach. Only two passengers and one sailor of this group escaped.

The Way They Have In Ireland

Man Charged With Betraying Collins Is Shot By Armed Band

Cork.—Charged with having driven the automobile in which Michael Collins rode to his death, Edward Isherwood, an Englishman, was taken from his residence by an armed band and shot. His wounds were not mortal, however, and after feigning death for several hours Isherwood escaped and made his way to a hospital. Pinned to his breast was a tag inscribed: "Convicted spy, I.R.A., beware."

What One of the Best Known Travellers in Canada Says

"Now I am going to give you an unqualified testimonial, as they say in the patent medicine advertising. Heretofore I have had a profound contempt for patent medicine, particularly so-called balms. Perhaps the reason that I have been blessed with a sturdy constitution and have just last fall after a hard day's tramp in the state of Montreal, I developed a severe pain in my leg and, of course, like a man who has never had anything wrong with him physically, I complained rather boastfully. The gentle wife says, 'I will rub them with some balm.' 'Yes,' she said, 'I said, just to humor you.' 'Well, in the comes with a bottle of Mince's Liment. Believe me the pain disappeared a few minutes after I used it. I will tell the world said so.' (Signed) FRANK E. JOHNS, Montreal.

Britain Will Pay Debts

Wants Moral Support of U.S. But Not Financial Help

London.—Prime Minister Lloyd George in conversation with Col. E. M. House, reiterated Great Britain's intention to discharging her present debt to the United States to the last farthing. Col. House told the Associated Press: Col. House said the Premier begged him to tell those at home that Great Britain was not seeking financial assistance from the United States, but desired very earnestly her continued moral support.

Red Troops Occupy Jap Mines

Tokyo.—The Japanese have evacuated the Suchang Mines which the Red troops immediately occupied, thus menacing Vladivostok economically and financially, according to a despatch published by the Jiji Shimpu.

Prohibition Defeated In Sweden

Stockholm.—A majority of 44,545 against prohibition is shown by the unofficial tabulation of the vote cast in Sunday's referendum throughout Sweden. These figures show: Against, 142,129; for, 87,584.

Cotton Shed Burns

Winnipeg.—The cotton shed of the Alaska Bedding Co. (Simmons, Limited) was gutted by fire Aug. 28, the damage amounting to between \$45,000 and \$50,000. The shed contained twenty carloads of cotton.

Difficult Days Are Still Ahead In Ireland Before Coming Of Peace

Dublin.—Political writers forecast that Sean Collins may consent to stand for the seat of his dead brother in Cork County; and say that he is certain to receive practically unanimous support from the southern admirers of the late leader.

General Richard Mulcahy now holds the combined posts of Minister of Defense, Chief of the General Staff and Commander-in-Chief of the National Army. Should he relinquish the office of Chief of Staff, it is expected that General O'Connell, Assistant Chief, will be promoted.

The Evening Press largely devoted itself to details of the guerrilla warfare which has been resumed in Cork County. At Blarney several engagements have occurred and many irregulars are reported killed or wounded. In Mayo successful operations have been carried out by the National forces, which have taken prisoners with arms and ammunition.

Discussing the general situation, the Evening Mail declares that it was never an easy task to predict the future in Ireland and at the present hour it is an impossibility.

"Dark and difficult days lie ahead," says the paper, "and no man can say what the next hour may bring forth."

In its endeavor to fulfill the work begun by Arthur Griffith and Michael Collins, the Government will require all the sympathy and support the public can give."

Daring Bank Robbery

Bandits Make Big Heist From Union Bank at Foremost

Lethbridge.—Six masked motor bandits held up the Union Bank of Foremost, about 80 miles southeast of Lethbridge on the Canadian Pacific Railway. Lethbridge-Weyburn line, bound and gagged two clerks sleeping in quarters over the bank and forced the junior clerk to open the outer door of the vault, and completely ransacked the vault and safety deposit boxes, getting \$12,000 in cash and \$70,000 in securities, mostly registered. They made their getaway by automobile. The yeggs blew the inner door of the safe.

Police here believe the job was done by professionals. They entered the town, cut the telephone cables at the exchange and the C.P.R. telegraph wires at the depot. Then they cut the wires on the ignition system of all the cars standing about on the main street.

Sturdy Wear

After you have worn Stanfield's Underwear for an entire winter and find it just as good as the day you bought it, you begin to appreciate the sterling quality, the masterly workmanship and the sturdy wear of this most famous of Canadian-made Underwear.

Spruce Grove School Fair.

The second annual School Fair will be held at Spruce Grove on Monday, Sept. 11. Teachers and pupils of the different districts participating are busy preparing their exhibits, and are looking forward with a great deal of pleasure to that day.

In the afternoon the children will march around the block with banners showing the name and number of the schools. A good program of sports, with suitable prizes, will come next in order.

Mr Brown, of the Dept. of Extension, will be present, to take a moving picture of the marching, sports, and other events, so all who would like to see themselves in the 'movies' should make a special effort to attend. These pictures will be shown at a later date at Spruce Grove.

Exhibits should be in place as early as possible, to give the judges an opportunity to complete their work in time for the people to see the different items.

The following schools are taking part in the Fair—

Spruce Grove
Atim Lake
St. John
Stony Plain No. 322

Graminia
Huron
Sand Hill.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

- Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmaturing coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,

Cleaning Threshing Machines

Attention of threshermen thru-
out the province is called to the
clauses in the Noxious Weed Act
which require them to clean their
threshing machines before leaving
one farm to go to another. The
weed branch of the department of
agriculture issues a special appeal
to owners and operators of thresh-
ing machines to see that their
machines are properly cleaned be-
fore leaving the farm on which
they are operating, and also to see
that tight bottoms are used on the
bundle racks, and that these are
swept off before moving to another
farm. Weeds have become to be
a serious menace in many parts
of the province, and threshermen
are asked for their earnest co-op-
eration in the efforts at eradication.
Farmers, too, are asked to insist
threshermen clean their machines.
It is impossible for the provincial
government to send inspectors to
all points where threshing machi-
nes are in operation, and the
threshermen and farmers them-
selves are urged to realize their re-
sponsibilities in this matter.

Stony Plain and District

Mr. G. E. Martin, Principal at
Spruce Grove School has added
Grade 9 to the curriculum. Miss
Constance McLaughlin is teaching
the Primary grades.

Owing to the increase of pay to
the miners, coal has advanced \$1 a
ton.

An Edmonton paper states that
a rancher has come up from Mont-
ana to purchase 6,000 head of
young cattle to ship back home.

Mr. Larson, an enterprising
Dane, has taken over the Val-
Kulak steam threshing outfit and
will operate it this season.

A meeting of threshermen will
be held on Saturday night next,
when the rates for the coming
season will be arranged.

Tuga councillors held their regu-
lar monthly meeting in Stony
Plain, on Friday last, when, among
other matters, the question of de-
ferred payment to men who per-
formed road work in councillor
Shaw's division in 1921, was up
for discussion. A noticeable fea-
ture of the meeting was an address
by Mr. James McDonald, the noted
orator, who spoke on "The Reli-
ability of Officials."

The Councillors of Spruce Grove
Municipal district were defendants
in a suit for non-payment of wages
to Mr. Larue and his gang of men
who made off with this summer in
Councillor Hadley's division. A
hearing was given on Tuesday,
when the cases were dismissed.

Another car of stock was ship-
ped from here last week, two and
three year old steers and heifers,
owned by Messrs. John Evjens and
O. Mickelson. Shortage of feed
is given as the reason.

At the recent Vancouver Fair
all the best exhibits of beef were
from Alberta.

A heavy enrolment for the nor-
mal schools of the province is tak-
ing place this year, according to
Hon. Perren Baker, Minister of
Education. The enrolment has
reached 881 at Edmonton, 159, Cal-
gary 218, Camrose 204. No per-
mit will be issued this year, save
in cases where it is absolutely in-
operative.

Mrs. L. Meakings wishes to in-
form the Public, that she has taken
over Mr. Freifeld's Ice Cream Par-
lour. Anyone wishing to hold small
parties, etc, can rent room for after-
noons or evenings as desired.

N. E. Shorten, Chiropractor, of
Edmonton, has arranged to be in
Stony Plain on Monday, Thursday
and Saturday afternoons, from
1 to 4.15.

Pure Seed Grain.

Marketing of seed grain on
an extensive scale, and in ac-
cordance with a plan which
will seek to encourage the
production of pure seed in the
province, will be under-
taken by the Provincial De-
partment of Agriculture. It
is anticipated that 100,000
bushels of seed grain of all
varieties will be handled un-
der the new scheme this year.
The handling and marketing
will be supervised by W. J.
Stephen, crops commissioner.

V. MOHR, Local Manager.

An Old-Timer.

Young Man Injured.

A shocking accident oc-
curred on Friday last, near
Stony Plain, when young Mr.
Emil Baron had his right
arm injured. While taking a
loaded gun out of a rig, the
trigger caught, discharging the
cartridge. The contents of
the shell entered the young
man's forearm. Assistance
was rendered immediately,
and the injured lad was re-
moved to the City, where an
operation was performed on
Sunday, amputating the arm
above the elbow. Emil was to
have started in Grade IX at
the local school on Monday
last.

Holborn News.

Holbor U F Local holds its
regular meeting tonight.
Mr T Scott's Bungalow is
completed, and the family
are moving in this week.
